DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Jamner teaches an endoscopic retractor for use in laparoscopic surgery to retract, separate, and expose difference tissues, organs, and viscera having portions to engage the targeted area. Jamner does not teach or suggest providing a wire device that is pushable through a microcatheter and has a flexible distal portion comprising a distal collapsible arm with a latch member carried by the arm; manipulating the latch member so that it engages an embolic coil to be retrieved; and withdrawing the latch-engaged embolic coil and wire device through the microcatheter whereby the arm becomes collapsed as the arm is withdrawn through the catheter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
